Vital Health Superfood

Optimize Brain Function

E3Live® Super Nutrition

E3Live® is a raw fresh-frozen aqua-botanical, known as *Aphanizomenon flos-aquae*. It is wild-harvested only one place on earth, Klamath Lake, Oregon. It provides 64 easily absorbed vitamins, minerals and enzymes. It is the most nutrient dense food known to mankind.

E3Live® is an all-natural food used by Olympic Gold Medal winners, professional athletes and people of all ages to increase energy and endurance, and to lift mood. It's even known to improve the quality of hair, skin and nails. Notably, E3Live® contains a high level of organic PEA (phenylethylamine), known as the "love molecule", also found in chocolate. PEA acts on the limbic system, which is the emotional center of the brain.

All Natural, All Organic

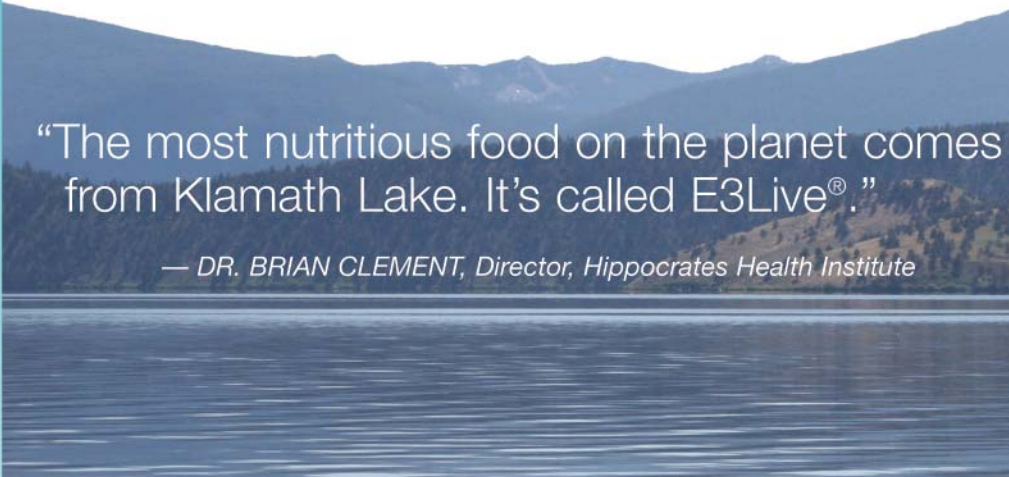

E3Live® has naturally occurring green, blue and magenta pigments which reflect the presence of fresh chlorophyll, PEA, phycocyanin (an anti-inflammatory), beta carotene plus unique nutritional factors for enhancing stamina and physical recovery time. E3Live® is the only food known to humanity to have all these benefits. That's why it's esteemed as a "superfood" by MDs and pro athletes.

E3Live® with BrainON®

We offer an enhanced version, **E3Live® with BrainON®**, with a higher concentration of organic PEA to **markedly promote mood balance and mental alertness**, in addition to increased energy.

"The most nutritious food on the planet comes from Klamath Lake. It's called E3Live®."

— DR. BRIAN CLEMENT, Director, Hippocrates Health Institute

Lift Mood & Enhance Focus

Hector Sabelli, M.D., notes “PEA metabolism is reduced in people who are depressed.” Gabriel Cousens, M.D., alternative medicine psychiatrist writes: “I’ve had people who’ve been depressed for years, and literally, within a few days after receiving E3Live® with BrainON® their depression lifts. It is specific for our nervous system, brain function and the quality of our consciousness. More than any other food, it enables us to make a paradigm shift and enjoy a sense of well-being. There’s a quality of joy that’s really subtle that many people experience.”

Promote Joy & Increase Clarity

PEA was found to be significantly lower in the brains of subjects with Attention Deficit Disorder. E3Live® with BrainON® provides extra PEA to support overall cognitive function. People report increased attention at school and at work.

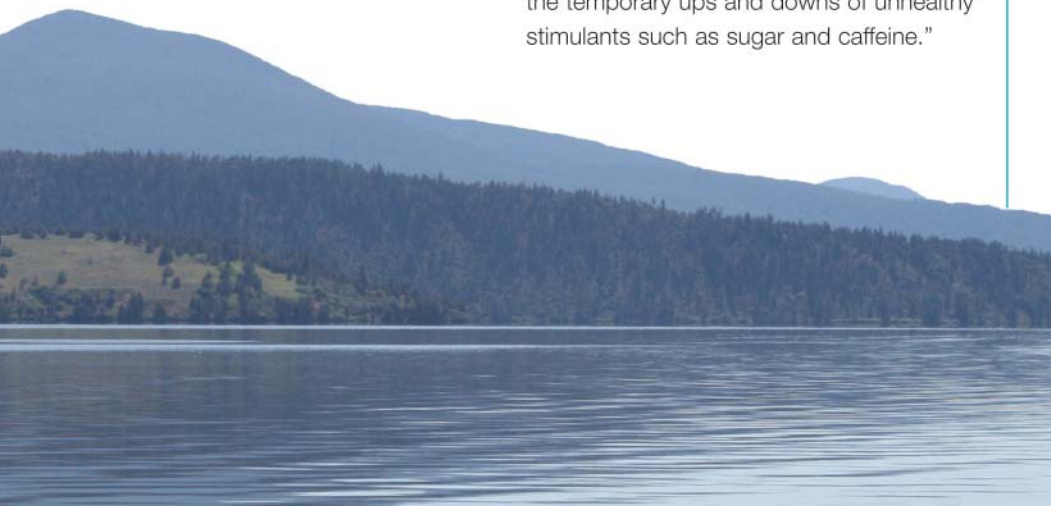

Dr. Connie Kennedy states: “I have never seen another natural product that compares with E3Live® with BrainON® in terms of promoting joyfulness and brain clarity benefits with no side effects. It helps to restore overall body/mind balance.”

Take E3Live® with BrainON® anytime you have to function at your best with clarity and attention.

Enjoy a Smooth Energetic Boost

Dr. Fred Bisci says, “As a clinical nutritionist with over 40 years experience, I’m impressed and delighted at how E3Live® with BrainON® helps such a wide range of health problems. I can only conclude that E3Live® with BrainON® has the therapeutic versatility of a true adaptogen (having many beneficial effects), nourishing the body and mind on multiple metabolic pathways at the deepest of physiological levels. The energetic boost from E3Live® with BrainON® is therefore wholesome and lasting, unlike the temporary ups and downs of unhealthy stimulants such as sugar and caffeine.”

Possible Benefits*

- Increase focus and clarity
- Balance mood with the "Love Molecule"
- Enhance overall well-being
- Increase endurance and stamina
- Speed up recovery time
- Restore overall chemical balance¹
- Enjoy a long-lasting energy boost²
