## How E3Live® is Made

The Pacific Ring of Fire holds 2/3 of the world's active volcanoes. It extends through Java, Krakatoa, and Tonga, touching the Northwest USA in the Klamath Lake region of Oregon, the only place on Earth where E3Live® is harvested.

Because the mighty Mt. Mazama erupted here 8,000 years ago (with over 40 times the power of Mt. St. Helens' blast in the 1980s), Klamath Lake is rich in volcanic minerals. Growing conditions are totally unique. Our mountain lake receives life-giving sunshine 300 days a year and its surface freezes in winter while mineral-rich volcanic hot springs rise up from the lake floor. No one has ever been able to domesticate this wild, all-organic superfood. E3Live®, with its volcanic legacy, goes far beyond domestic organic farming. Only the primordial forces of the Hand of Creation can make E3Live®. We are dedicated to gathering this vital, nutrient-dense gift of nature. We make its power available to you.

Energize. Balance. Focus.

Fresh Green Superfood

- 1 **Energize** your body
- 2 **Balance** your mood

### **The Best Food You Can Give Your Body**

E3Live® is a raw fresh-frozen aqua-botanical, known as *Aphanizomenon flos-aquae*. It is wild-harvested only one place on earth, Klamath Lake, Oregon. It provides over 64 easily absorbed vitamins, minerals, micronutrients, EFAs and enzymes. This one-of-a-kind superfood is the most nutrient dense food known to humankind.

### **Designed by Nature**

E3Live® is an all-natural food used by Olympic Gold Medal winners, professional athletes and people of all ages to increase energy, endurance and lift mood. E3Live® contains a high level of organic PEA (phenylethylamine), known as the

Love Molecule™, also found in chocolate. PEA acts on the limbic system, the emotional center of the brain.

### **The Absolute Nutritional Peak**

“E3Live® has more bio-available chlorophyll than any other food. In biochemical research circles, the presence of chlorophyll in such high quantities is a clear indication of extraordinarily high life-force. This inherent vitality helps keep E3Live’s® wide spectrum of nutrients at their absolute nutritional peak. This partially explains the mystery of how E3Live® can have so many positive health benefits.”

— **Karl J. Abrams, Professor of Chemistry, Author, “Algae to the Rescue.”**

E3Live® gives you the natural lift you just can’t get from the processed energy drinks that are so popular today. Its pure\* and steady boost keeps you at a healthy wellness level without the “crash” you get from unnatural stimulants. E3Live® is your organic lift for a full day of living!

*\* The E3Live in every single bottle has been safety-tested by independent labs. We meet and exceed all purity and quality standards.*

### **Wild. Raw. Organic.**

E3Live® helps alkalize the body. It is a complete, raw, living food. E3Live® has naturally occurring green, blue and magenta pigments. These reflect the presence of fresh chlorophyll, anti-inflammatory phycocyanin, PEA, trace minerals, beta carotene plus unique nutritional co-factors to promote stamina and recovery time. E3Live® is the only food to offer all these possible benefits. That’s why it’s renowned as a superfood by MDs and professional athletes.
